

# Careers

We were thrilled to welcome two very special guests to the academy this fortnight to host working lunches. Mr Khizer Mansoor, a paediatric surgeon, spoke to our aspiring students in medicine and Mr Steve Butler joined us to talk his journey into software engineering.

Our working lunch programme offers students direct contact with "real employers" to provide careers "inspiration" and advice. We use these as opportunities to inspire students with a sense of what they can achieve.

IntoUniversity ran a workshop this week with a group of Year 9 students on study skills and career options.

The aim of the programme is to offer an innovative programme that supports young people to attain either a university place or another chosen aspiration.

Over the next few academic years, they will focus on academic support, focus and mentoring.
