

Childcare	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
<p>Year 9 CACHE Level 2 Award in Child Development and Care</p>	<p>Students will be studying Unit 2 and will know about the expected pattern of holistic child development. They will understand the importance of observations and other assessment methods and will recognise a range of observation techniques. They will know about a range of factors that may impact upon a child's holistic development and learn about the role of practitioners in using care routines and activities to support independence, health, safety and well-being. Students will also know about a</p>	<p>Students will continue working toward Unit 2.</p>	<p>Students will be working toward completion of Unit 2 coursework and will begin Unit 1 coursework. They will sit the MCQ paper.</p>	<p>Students will be studying Unit 1 and will recognise a range of settings, local and national where care and learning is provided for children.</p>	<p>Students will continue working toward Unit 1. They will learn how to prepare for work with children in a placement experience and understand how to value each child and their family. Students will know how to meet individual needs and learn how to practice fairly. Students will work to understand a range of study skills. They will learn how to identify their own learning style and recognise why this is important.</p>	<p>Students will sit the exam for Unit 3, following mock assessments. They will then work to upgrade coursework for Units 1 and 2.</p>

	range of transitions children are likely to experience and the ways in which they can be supported.					
Year 10 CACHE Level 2 Award in Child Development and Care	Students will be studying Unit 2 and will know about the expected pattern of holistic child development. They will understand the importance of observations and other assessment methods and will recognise a range of observation techniques. They will know about a range of factors that may impact upon a child's holistic development and learn about the role of practitioners in using care routines and activities to support independence,	Students will continue working toward Unit 2.	Students will be working toward completion of Unit 2 coursework and will begin Unit 1 coursework. They will sit the MCQ paper.	Students will be studying Unit 1 and will recognise a range of settings, local and national where care and learning is provided for children.	Students will continue working toward Unit 1. They will learn how to prepare for work with children in a placement experience and understand how to value each child and their family. Students will know how to meet individual needs and learn how to practice fairly. Students will work to understand a range of study skills.
